

Creating healthy spaces

# Miniscreen®

A compact vertical sunprotection for inside or outside

# Miniscreen®

## Introduction

Miniscreen® is a compact and intelligent solar shading screen with a modern design. The system has been developed to the latest standards and matches perfectly with the Healthy Building Concept®. Miniscreen® means maximum comfort at 'mini'prices.

The vertical solar shading is made to measure to the customer's requirements with high quality screens for both external and internal use. Miniscreen® perfectly controls light and heat. In addition, Renson offers a 5 year guarantee on this innovative sun protecting screen.

## Product

### Design

- Softline design of the box
- No folds or wrinkles in the screen
- Can be combined with fibreglass Sergé® or Soltis® fabrics
- Blackout fabric also for outside application
- Profiles available anodised or powder coated in any RAL colour

### Comfort

- Manual or multiple control options

### Durability

- 10 year guarantee on all concerning the coating of aluminium elements
- 10 year guarantee on the product
- 5 years guarantee on the electronic control
- 5 years guarantee on the fabric collection

## Applications

- For all window types: aluminium, timber, PVC
- For new constructions and renovations / for private homes and building projects
- Suitable for inside and outside use
